## DETAILED ACTION

### **Response to Amendment**

1. Applicants' amendment and remarks, filed November 08, 2005, has been made of record and entered. Claims 1-3, 8, & 14 have been amended.

Claims 1-14 are currently pending and under consideration.

### **Status of Withdrawn Claims**

2. Claims 10-13 were previously withdrawn due to nonelected invention. Since the product claims are found allowable, they have now been rejoined with the elected claims.

### **Claim Objections**

3. Claims 1, 8, & 14 are objected to because of the following informalities:

A. In claim 1, it is suggested that applicants change “, tH<sub>2</sub>O” to --·tH<sub>2</sub>O-- in all chemical formulae.

B. In claim 8 & 14, it is suggested applicants rewrite the chemical compounds in accordance with the chemical formulae as set forth in claim 1. For Example, “Co<sub>2</sub>Mo<sub>10</sub>O<sub>38</sub>H<sub>4</sub>Co<sub>3</sub>” wherein M is “Co<sub>3</sub>” which should have been placed in the front of this chemical formula. So, it should be written as -- Co<sub>3</sub>Co<sub>2</sub>Mo<sub>10</sub>O<sub>38</sub>H<sub>4</sub>--. Same corrections should be made to other chemical compounds in these claims as well.

Appropriate correction is required.

**Claim Rejections - 35 USC § 112 (Second Paragraph)**

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 10-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 10-13 provide for the use of "the catalyst", but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

**Claim Rejections - 35 USC § 101**

6. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

7. Claims 10-13 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

**Citations**

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. All references are cited for related art. See PTO-892 Form attached.

**Conclusion**

9. Claims 1-14 are pending. Claims 1, 8, & 14 are objected. Claims 10-13 are rejected. Claims 2-7 & 9 are allowed.
